

## APUCARANA

*UTFPR APUCARANA- 2007*

The Campus Apucarana UTFPR, which began its operation in January 2007, offers the Integrated Technical Course in Clothing modeling aimed at graduates of junior school; five undergraduate courses: Civil Engineering, Chemical Engineering, Textile Engineering, Fashion Design and Degree in Chemistry; Teacher Training Course; Professional Qualification courses for students and the community, and Graduate courses.

The Campus, which began its activities with the provision of the Technical Course in Clothing Industrialization (2007), now Clothing Modeling, was consolidated and expanded with the implementation of the undergraduate courses: Fashion Design (2007) and Chemical Processes (2009). With the program Restructuring and Expansion of Federal Universities, UTFPR had new expansion with the offer of Textile Engineering (2010) Degree in Chemistry (2011), Chemical Engineering (2014) and Engineering Civil (2015). It also has the course of Electrical Engineering awaiting
